

Brake Service Solutions

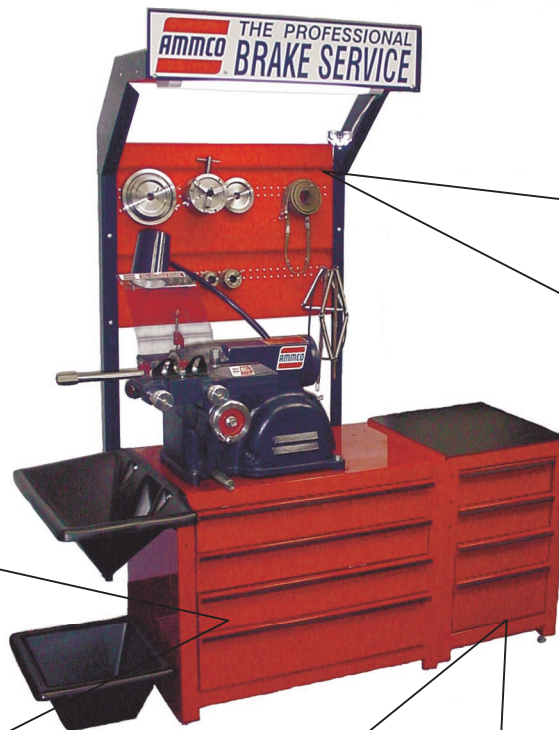

Problem:

- Where do you conveniently & safely store special lathe adapters, micrometers and specialty brake service shop tools?
- How do you provide a well lit brake lathe work station & provide “easy reach” storage for often used adapters

Solution:

Brake Lathe Toolbox

- #941055
- Fits all current Ammco Bench Lathes
- Same footprint as current lathe bench
- Quality toolbox construction
- 4 drawers with first rate slides & weight capacity
- Drawers sized to hold adapters, micrometers, specialty brake tools, brake lathe consumables, etc. in a safe organized manner
- Will increase shop's brake service efficiency
- Comes with funnel & bucket kit
- Leveling legs
- Accepts either Ammco #941053 toolboard & light canopy or #902515 toolboard & sign kit

Toolboard & Light Canopy

- #941053
- Fits all current single lathe benches & toolboxes
- 36 Watt, 2 tube (18”), fixture
- Quality construction
- Illuminates toolboard and lathe area
- Especially good for units in a dark “backroom”
- Will increase shop's brake service efficiency

Side Storage Cabinet

- #941054
- Matches height & depth of all current lathe benches & toolboxes
- Small footprint
- Quality toolbox construction
- 4 drawers with first rate slides & weight capacity
- Top mat provides work surface (measure drums & rotors) and protects cabinet top
- Drawers sized to hold adapters, micrometers, specialty brake tools, brake lathe consumables, etc. in a safe organized manner
- Will increase shop's brake service efficiency
