

COATS®

The Coats® EL-X™ Express Lane Inflation System

ELIMINATES THE INFLATION PROCESS WAIT TIME ON THE TIRE CHANGER

Inflation can be carried out off the tire changer, so the technician can be changing the next tire while inflation occurs

DIGITAL INFLATION SYSTEM DELIVERS FAST AND ACCURATE RESULTS

Tire is fully inflated to within +/- .5 PSI of preset pressure

ENABLES FASTER BAY TURNS AND REDUCED CUSTOMER WAIT TIMES

This translates into greater tire changing capacity and overall profitability for your shop

After all, it's a Coats. The world leader in wheel service technology for over 65 years.

COATS® EL-X™ EXPRESS LANE INFLATION SYSTEM

PROVIDES UP TO 20% TIME SAVINGS ON A 4-TIRE TICKET VS. CONVENTIONAL INFLATION PROCESS

When you add the EL-X™ Express Lane Inflation System to your Rim Clamp® tire changer, you automatically get back 20% more of your day – that’s the time wasted inflating tires on the changer. And the EL-X is so easy to use! After the tire is mounted, simply transfer it to the EL-X, hook up the air chuck and push start. The machine does the rest while you change another tire.

- Compatible with all Coats Tire Changers
- Accuracy +/- .5 PSI guarantees uniform pressure in all tires
- Instinctively easy to operate
- Heavy duty grip chuck grabs and seals stem for leak-free operation
