

Balancer Chuck Kit

- The Balancer Chuck centers itself in the wheel, off the balancer, so weight is not a factor, then mount the tire and wheel assembly onto the balancer shaft
- Easier for a technician to achieve an accurate mounting compared to a steep cone.
- Since this is a 3 jaw chuck, cone angle is not a factor
- Kit includes Balancer Chuck, XL Pressure Drum, & Chuck Key
- A ratchet may be used with chuck key
- Few components to store
- A wide range, 3.13" to 7.13", makes the chuck a versatile tool for most hub centric wheels
- Available in both 28mm I.D. and 40mm I.D.
- Optional extended jaw set

Part Number	Sales Description
8113326C	Balancer Chuck, 28MM
8113330C	Balancer Chuck, 40MM
85000856	Extended Truck Jaws, Increases range to 9.125"
